# MEET YOUR school liaison officer

**LaChelle Carr**

**CYP Director | School Liaison Officer**

Hello and welcome to Korea! My name is **LaChelle Carr** and I am the School Liaison Officer assigned to **Chinhae and Busan**! I started my career working with Navy Child and Youth Programs in 2010 as a CYP Lead at Command Fleet Activities Chinhae. I worked at Naval Air Station Sigonella as the Teen Coordinator before returning back to Korea in 2020. My experiences working with CYP has given me the opportunity to become familiar with the military lifestyles and changes families undergo on a daily basis.

Now, in my current role as the **CYP Director and School Liaison Officer**, I have the opportunity to help provide an environment that promotes positive growth and development & influences the overall health of children in military families. I am grateful to have been able to combine both through building a firm foundation based on the high standards and values of Navy CYP.

Whether you and your family are moving to metropolitan Busan or scenic & peaceful Chinhae, you are never too far from our Navy community. The process of moving your children and spouse across the world is tough enough as it is, so the goal of this guide is to help relieve some of that stress and to provide some tools to promote a smooth, seamless transition to Korea.

This publication contains information on all of the education options currently a part of the Non-DoD School Program (NDSP). Your children will have the opportunity to attend any one of these education options and each option has something different to offer. I hope that you will find this guide useful in selecting the best education option to support your children's needs.

*LaChelle Carr*

# What is the Non-DoD School Program?

The **Non-DoD school program (NDSP)** is in place to help maintain the continuity of education for children when families are stationed at international locations where DoDEA schools are not available. The goal of the NDSP is to help with the cost of education in international locations as well as support for making the transition back to education in the United States as seamless as possible.

The NDSP helps cover costs that would not normally be expenses for families in the states such as fees for tuition and enrollment, textbooks and transportation. These expenses that are covered by the NDSP are known as **allowable expenses**. Any expenses that will be the responsibility of the families are known as **non-allowable expenses**. These are expenses that would be covered by the parents if their children were attending school in the United States or at a Department of Defense Education Activities (DoDEA) school. These non-allowable expenses would include fees for meals, camps, field trips and uniforms amongst others.

The **NDSP does not endorse any specific school**. Families have the opportunity to choose any school that they would like to send their children to based on the needs of their children. This gives families the chance to send their children to international schools that utilize varying curriculums and offer a number of extra-curricular activities and programs.

All families will be allotted an education allowance to send their children to the international school of their choosing. Any fees, regardless of whether or not they are allowable or non-allowable expenses that exceed that annual education allowance will be the financial responsibility of the parents. Payment arrangements for any fees in excess of the education allowance will be arranged between the families and the schools.

All parents must take the **NDSP online orientation** *prior to registering* with the NDSP. After registering with the NDSP and receiving confirmation for the funds that you have been authorized, families can enroll at the international school of their choice.

Visit <https://www.dodea.edu/nonDoD/index.cfm> for more detailed information.

# Curriculum Guide and Education Standards

**Confused about the different type of curriculums offered?**

**Here are descriptions of the curriculums and education standards utilized at the currently available education options.**

## **American Common Core State Standards**

Common Core will probably be recognized by most Americans. These standards were developed as a means to break the stagnant increase in performance levels of children in the United States. These standards outline what children should know by the end of each grade level in Mathematics & Language Arts/Literacy.

For more detailed information on the Common Core State Standards, please visit:

<http://www.corestandards.org/about-the-standards/>

## **American Education Reaches Out (AERO)**

AERO is a project set up by the US Department of State in order to help schools overseas that are implementing curricula based on American education standards. The AERO project strives to set standards in English/Language Arts, Mathematics, Science, Social Studies, Art, Music & World Languages.

For more detailed information on AERO, please visit:

<http://www.projectaero.org/>

## **Alberta Curriculum**

A Canadian based curriculum in which, according to the Program for International Student Assessment (PISA), is said to be one of the best education curriculums for children. The Alberta curriculum was developed with the whole child in mind. Educators work to educate children based on their individual levels rather than requiring all of the children in the class to perform on the same level. This approach allows children to learn at their own pace.

For more detailed information on the Alberta curriculum, please visit:

<http://education.alberta.ca>

# Curriculum Guide and Education Standards

## International Baccalaureate

The International Baccalaureate Program (IB) was developed to help children become lifetime learners, who are able to think critically and independently. This curriculum has been in use for the last fifty years in more than 150 countries. The IB Program is comprised of four programs:

- Primary Years Program (PYP) for Kindergarten-5th Grade
- Middle Years Program (MYP) for grades 6th-10th
- Diploma Program (DP) for grades 11th-12th
- Career Related Program (CP) for students ages 16-19.

Three of the four programs PYP, MYP and DP are currently offered in the international schools.

For more detailed information on the International Baccalaureate Program, please visit: <http://www.ibo.org>

## Fieldwork Education's International Curriculum

This international curriculum is comprised of three programs:

- International Early Years Curriculum (IEYC)
- International Primary Curriculum (IPC)
- International Middle Years Curriculum (IMYC)

The curriculums are all designed around eight learning principles that are essential to children's learning, growth and development. Each of the curriculums features learning units that aim to capture children's interest by teaching them subjects in a way that exhibits the interdisciplinary and holistic nature of subjects.

For more detailed information about Fieldwork Education's International Curriculums, please visit: <http://fieldworkeducation.com>

## Cambridge international Curriculum

The Cambridge International Curriculum uses a learner-centered, inquiry-based approach to learning and presents students with a broad range of subjects. One of the goals of this curriculum is develop students' skills in problem solving, creative thinking and inquiry and also strives to help students transition into advanced studies. Schools have the ability to structure the curriculum based on the specific needs of their students as there are 70 subjects in 30 different languages offered.

For more detailed information about the Cambridge International Curriculum, please visit: <http://www.cambridgeinternational.org/>

# CL Education Academy

CL Education Academy first opened its doors in 2004, as an intensive program to accommodate academic excellence for students from **Pre-K through Middle School**. In 2017, CL created the Apex Foreign Academy for Chinhae US Naval families, housed within CL Education Academy less than ten minutes from base.

Apex Foreign Academy provides a personalized, educational experience for students from Pre-K through Elementary School, utilizing a Montessori philosophy.

Apex offers Student-Teacher ratio of 3:1 to provide individualized education for each student. The Apex experience offers student a small, caring environment to learn and pursue a number of interests. Our teachers are Highly Qualified and have decades of experience teaching in both the United States and South Korea. In addition to following Common Core Standards, our teachers are experience in Individualized Education Plans, PEAK Strategies, Multiple Intelligences, and Parallel Assessments. Academically, we want our students to be open to different academic subjects and styles of learning. Our faculty are constantly updating and enhancing the curriculum with programs, using STEM programs and History Alive!, to provide students with opportunities to achieve success.

Our curriculum teaches respect from difference. We nurture academic excellence in our students by giving them the academic and life skills they need for continued success. We offer a balanced academic program to provide students with a depth and breadth of understanding. We will aim to develop core academic skills in our students: literacy, numeracy, a sense of historical development, problem-solving, critical thinking, an appreciation of the arts, global awareness, and a life-long love of learning.

At Apex, we create a place where all are welcome by building a community in which people from different cultural and religious backgrounds learn, live and work harmoniously with mutual respect and understanding.

**Curriculum:** American Common Core State Standards

**Current Attendance:** 400

**Current Number of Military/DoD Students:** 0

## Daily Schedule

# British International Academy Yulha

British International Academy Yulha offers an International Baccalaureate education to learners from the **ages of 3 to 9**. Childhood at the British International Academy is treasured and in addition to providing a rigorous curriculum, your child's happiness is paramount.

## BIA YULHA Programs

We use the IB Primary Years Programs, supported by the English National Curriculum for Early Years.

- Pre-Kindy: Age 3 to 5
- Kindergarten: Age 5 to 6
- Grade 1: Age 6 to 7
- Grade 2: Age 7 to 8
- Grade 3: Age 8 to 9

## Early Years Program

Early Years at BIA is an exciting world of discovery – a time to grow through play and inquiry; to begin to make sense of the world around them, both inside and outside the classroom. Through play and exploration, learners build and test theories to help make sense of the world around them.

## Primary Years Program

Primary Years at BIA is a time to ask questions, and find answers and solutions to problems through inquiry. It is a time to develop passions and friendships as our students begin to take ownership of their education.

**Curriculum:** International Baccalaureate Program

**Current Attendance:** 23

**Current Number of Military/DoD Students:** 0

# International School of Koje

The International School of Koje is situated on the tranquil island of Geoje. The school is **truly international with dozens of nationalities** represented in the student and teacher population making an incredibly vibrant learning community.

Accredited by the **Western Association of Schools and Colleges (WASC)** the approach to learning is rigorous and fun as the school believes everyone should enjoy and master their own learning, all the while becoming confident global citizens. All the **teachers are highly qualified and receive constant additional professional development** to ensure the students receive the best education they can.

ISK follows the **International Early Years Curriculum for ages 2-5, the International Primary Curriculum for ages 5-11 and the International Middle Years Curriculum for ages 11-14**. Each of these curricula is rooted in up to date research of what great learning actually is depending on the developmental stage of the child and the school is accredited throughout these age ranges and in the process of improving further through reaccreditation.

**Service and Challenge** is a key part of the Secondary Section with the Middle Years students taking the **William Pike Challenge Award** and Higher Years taking the **Duke of Edinburgh's International Award**.

## Curriculum:

- **International Early Years Curriculum (IEYC)**
- **International Primary Curriculum (IPC)**
- **International Middle Years Curriculum (IMYC)**
- **Cambridge International General Certificates in Secondary Education (IGCSE)**
- **Cambridge Advanced Levels (A-levels)**

The **International General Certificates of Education (IGCSE)** are rigorous certificates worked towards over **2 years of study and assessed by exams**. Students study separate subjects towards exams resulting in a collection of **internationally recognized graded certificates**. Students then follow **Advanced Levels** in individually chosen subjects in preparation for university or the world of work. Both IGCSE's and A-levels are awarded by **Cambridge International Assessment**.

**Current Attendance:** 46

**Current Number of Military/DoD Students:** 0

International Mindedness is **Learning** who we are, being **open** and **connecting** to our world.

ISK has added 2 state of the art Science labs to its already impressive Art rooms, Music Rooms, Gymnasium, Library, Maker Spaces and outdoor all-weather fields. It is also building a woodland

and farming area, secondary library, Higher Years student's hub and a fitness and dance suite. All the spaces listed above are used for a range of after-school activities on Monday to Friday, with the exception of Wednesdays, run by the dedicated and passionate teachers and volunteer parents from the community eager to share the things they enjoy with the next generation.

Proud to deliver

# British International Academy Geoje

The British International Academy (**BIA**) offers an International Baccalaureate education to learners from the **ages of 3 to 18**. BIA has a multicultural, multilingual community in which students from diverse nations learn and grow together. It's a friendly school with each child receiving lots of teacher support and attention, in order to optimize their progress.

## BIA's IB Programs

**Primary Years Program: Pre-K to Grade 5**

**Middle Years Program: Grade 6 to 10**

**Diploma Program: Grade 11 to 12**

- BIA High Schoolers prepare SAT and AP subjects from Grade 10.
- They also receive university counseling and mentoring from Grade 10.

BIA enjoys a rural setting in Deokpo with its own gardens, just a 5 minute drive from central Okpo. We are lucky enough to have the mountains and beach on our doorstep, giving us unlimited access to Geoje's beautiful nature and extending our learning environment beyond the classroom walls.

Our goal is to provide an excellent, balanced and child-centered education that is both enjoyable and meaningful. Beyond the classroom, we offer an imaginative programme of creative, sporting, cultural and social activities that offers further challenges and experiences.

Above all, we offer the environment, care and positive encouragement that children need in order to develop into confident and caring global citizens, who will be able to thrive and solve problems in an ever changing world.

**Curriculum:** International Baccalaureate Program

**Current Attendance:** 70

**Current Number of Military/DoD Students:** 0

**CIS Member (Council of International Schools)**

CIS - one of the largest international education accreditation organizations in the world

## Teaching & Learning

Students learn best when their learning experiences have context and are connected to their lives and their experience of the world. Concepts are big ideas that have relevance within specific disciplines and across subject areas. BIA students use concepts as a vehicle to inquire into issues and ideas of personal, local and global significance and examine knowledge holistically.

## Approaches to Learning (ATLs)

A unifying thread throughout all subject groups is our Approaches to Learning (ATL) that provide the foundation for independent learning and encourage the application of knowledge and skills to unfamiliar contexts. Developing and applying the 5 key ATL skills (Social, Thinking, Research, Communication and Self-Management skills) helps students learn how best to learn.

## Community Service

Action and service have always been shared values of the BIA community. Students take action when they apply what they are learning in the classroom and beyond. IB learners strive to be caring members of the community who demonstrate a commitment to service— making a positive difference to the lives of others and to the environment.

## Parents

We understand that education is constantly changing and that you want the best for your child. We aim to inform parents about our Programmes and their development so that you can better understand your child's progress and feel a part of it.

# Busan Foreign School

Busan Foreign School is an international school with an **American style** educational philosophy and curriculum. Our mission is to inspire each learner by providing educational services that nurture their social, intellectual, emotional, and physical growth. Our students are prepared to enter **top-tier universities** worldwide as responsible citizens in a rapidly changing world. Our ongoing commitment to **intercultural understanding** and a strong **partnership** between students, parents/guardians, teachers and the community enable us to achieve this in a **caring and supportive environment**.

**Busan Foreign School has been fully WASC accredited (PreK-12th Grade) since 1998.**

Busan Foreign School opened its doors in October of 1996. We are currently educating over 250 students from 20 different nations. The curriculum has developed into a highly rigorous **American standards-based** program that offers students a wide variety of courses and activities. Busan Foreign School provides additional **student support services** to best serve all student learning styles.

**Curriculum:** American | Common Core | AP

**Current Attendance:** 250

**Current Number of Military/DoD Students:** 70

Busan Foreign School strives to offer a **balanced program of academics, athletics, and arts**. We believe that both academic and nonacademic life are equally important and help to shape our students into model citizens of the world.

BFS facilities include a STEAM (science, technology, engineering, arts, and mathematics) tower, outdoor futsal field, indoor gym, recreational rooftop, and multi-purpose auditorium: Everything your child needs to pursue their passions.

Over 95% of the teaching staff are either **US or Canadian certified teachers**, and all staff and administrators are trained in the most current research of best educational practices. The Common Core curriculum and other U.S. based national standards guide all classroom instruction. Staff members are required to professionally develop their skills. At the secondary level they apply their training in teaching rigorous **Advanced Placement** courses in the Maths, Sciences, English, Humanities, Languages, and the Arts. Busan Foreign School was accepted in 2016 year to the **AP Capstone** Program, becoming the third school in Korea administering this Diploma. At the elementary level, we have implemented **Eureka math**, the most widely used math curriculum in the U.S. School-wide we subscribe to the Readers' and Writers' Workshop model to hone **English literacy** skills.

## STUDENT BODY

As of August, 2021, Busan Foreign School has 250 students from nursery to grade 12. The majority of our students are US citizens, but as a whole the student body is composed of children from over 20 different nations.

Elementary - 114

Middle School - 53

High School - 83

**95%** attend post-secondary education

The average class size is 14

**8:1** Student to Teacher ratio

Haeundae-gu, 48084 Busan,  
South Korea

# International School of Busan

ISB is an English-medium, non-profit making **IB World School**, that has been serving the international community of Busan since 1983. More than **35 nationalities** are represented in a diverse school community of students aged 3-18. The school is **fully accredited by the US School Accreditation Agency - WASC** and it is authorized to offer all three **IB Program - the PYP, the MYP and the Diploma Program**.

The school offers a happy, safe and supportive atmosphere, with a strong commitment to helping all children succeed, whatever their background or abilities. Learners develop socially and emotionally so that they take pride in their learning and want to do well. A carefully selected team of talented **international educators** provide a school experience that is designed to bring out the very best in every child. Families describe ISB as a caring, warm and welcoming community where **every child is valued, respected and provided with the opportunity to thrive**.

Our impressive, state-of-the-art, purpose-built campus includes a full-sized soccer field, gymnasium, tennis and basketball courts, playgrounds, science labs, design and technology labs, well-resourced libraries and a cafeteria serving a range of healthy and nutritious food options.

The school has an **extensive after school program** that allows students to follow their passions, whether that be participating in a drama production, learning a musical instrument or training with the soccer squad to prepare for an upcoming tournament. The after school elective program operates five days a week and a late bus is provided for participating students.

Fully Accredited by

Average IB Diploma grades are consistently above world average and ISB graduates go on to attend **prestigious universities across the world**. Recent graduates have attended universities which include Berkley, Cornell, NYU, Pennsylvania State, Purdue, Texas A&M and UCLA.

**Curriculum:** International Baccalaureate Program

**Current Attendance:** 320

**Current Number of Military/DoD Students:** 34

“Conversations with representative students indicated that ISB has high expectations and rigor throughout their programs and teachers provide quality feedback. In conversation with the faculty, leadership, students, the parent community, and the Board of Governors, it is evident how much the school cares for their students. ISB has created **a caring and nurturing environment** that permeates throughout the entire school community.”

**WASC Accreditation Report, January 2021**

# Gyeongnam International Foreign School

Gyeongnam International Foreign School (GIFS) is a **K-12 co-educational institution** offering students and families a truly international educational opportunity. GIFS students come to us from near and far around the world. In this **multicultural** and **multilingual environment**, students have the opportunity to learn about themselves and each other in a rapidly changing globalize world. GIFS is committed to providing academic rigor provided by the International Baccalaureate and a multitude of extra-curricular activities in a caring environment. Although our graduating classes are small, we are proud that our seniors have moved on to top-tiered colleges and universities in the US, Europe and around the world. GIFS is an IB World School, offering the Diploma Program (DP) in grades 11 and 12, the Primary Years Program (PYP) in kindergarten through grade 5 and is a candidate for authorization for the Middle Years Program (MYP) in grades 6-10. GIFS is **accredited by the Western Association of Schools and Colleges (WASC)**.

**Curriculum:** GIFS follows the International Baccalaureate PYP standards and practices for grades K-5 and the International Baccalaureate MYP framework for grades 6-10. American Common Core standards are incorporated into the curriculum at both levels. GIFS follows the International Baccalaureate DP standards and assessments for grades 11-12.

**Current Attendance:** 100

**Current Number of Military/DoD Students:** 0

GIFS opened its doors in 2004 with sixteen students and now welcomes **an average of 100 students per year**. It is located in the city of Sacheon, a medium-sized city in a coastal area on the south central tip of South Korea. We offer an excellent educational environment in a modern purpose-built facility.

GIFS is a **truly international school** made up of students and staff from around the globe. At any given time, it is normal for us to serve as many as **twenty-five nationalities** among our student support staff is also a diverse one made up of many nationalities, ages, genders, and religious affiliations. Currently, the GIFS staff includes American, British,

Canadian, South African, Spanish, Filipino, Turkish, Indian, and Korean staff members. Everyone within our learning community strives to provide an enjoyable, challenging, and safe education for our students.

"GIFS is a school that is flexible to and in touch with student's needs. Students come first at GIFS."

# Gyeongnam International Foreign School

Inspiring Excellence in an International Community of Learners

# Home Based Education

The NDSP offers an education allowance for families that opt to provide their children with education at home. Parents are able to choose the at home curriculum that is best suited for the needs of their children and the NDSP will cover the costs of allowable expenses.

For children that are stationed in Chinhae or Busan the **Child & Youth Educational Services** provides a *Home School Road Map* and additional Resources for Home School.

(pages 24-27 are excerpts from the Road Map)

**Child and Youth Programs (CYP)** provides activities to enrich the children's home education as well as to give them a break from studying at home. CYP may offer activities such as cooking club, fitness, art and gardening amongst others at no cost to the families.

CYP Professionals utilize curricula from the **Boys and Girls Clubs of America (BGCA)** and **4-H** to develop new experiences for our youth in home based education. Both organizations offer curricula that helps CYP professionals to develop the whole youth—mind, body and soul. It is important that we maintain a strong connection with the youth in our programs and give them a place where they can come together and experience the social interactions that they may be missing out on from not being in a school.

Number of Children Currently Homeschooled: 3

## THINKING OF HOMESCHOOLING IN CHINHAE OR BUSAN?

### What is homeschooling?

Homeschooling is the practice of opting to teach your own children at home via parents, tutors or virtual programs instead (or in lieu) of sending them to school.<sup>1</sup>

### How do I homeschool?

1. Connect with parents who are already homeschooling.
2. Understand your area's homeschool law.
3. Learn about teaching styles, learning styles and educational approaches.
4. Choose curriculum.
5. Decided where you will homeschool and create a schedule.
6. Enjoy the learning process. Re-evaluate. Change what isn't working.
7. Celebrate and highlight your students' growth & achievements.

For further details from this checklist, see <https://hslida.org/get-started>.

### Is school attendance required?

Military and the Department of Defense civilian families are turning to homeschooling because of frequent transfers between bases within and outside the United States. Mandatory school attendance is required in the U.S., and military families must follow the compulsory attendance laws of the state in which they reside. However, children of U.S. military and DOD civilian personnel overseas are not subject to U.S. state mandatory attendance statutes while in another country; and dependents may or may not be subject to the school laws in their country depending on the host country requirements for military families.<sup>2</sup>

DoDEA encourages DoDEA-eligible sponsors who choose homeschool as their dependent's educational option to communicate this through their chain of command to determine whether there are any command policies or other guidelines that ensure homeschool practices meet host nation, state, commonwealth, possession or territory requirements.<sup>3</sup>

## How much does homeschooling cost?

Budget-friendly ways to source your curriculum:

- Look for opportunities to borrow or rent curriculum
- Discover the library
- Watch for used book sales
- Don't forget about online used book sources
- Consider reusable or multi-level curriculum
- Check out free curriculum

Estimate your budget:

Cheapest Approach: \$50-100 per student

- Consider finding these services for free or can exchange your services with someone else.

Moderate Approach: \$300-500 per student

- Includes a few paid extras like co-ops, tutors, online courses or extracurricular classes like art or music.

Most Expensive Approach: \$500 or more

- Includes paying for tutors, online classes, video courses, correspondence schools or all-inclusive curriculum packages.<sup>1</sup>

**TIP:** Look for separate Facebook group (i.e., “Patriotic Homeschool Group” vs. “Patriotic Homeschool Resale Group”)

## What curriculum is available?

- Complete curriculum packages (“boxed curriculum”)
- Online courses
- Subject-based curriculum
- Integrated studies/unit studies

## How do I compare curriculum?

- Student-paced or program-paced curriculum
- Comprehensive curriculum or supplemental curriculum
- Independent learning or teacher-led curriculum
- Online curriculum or textbook/workbook
- Automated grading or manual grading

When you find a homeschool curriculum provider that you think may work, find out if you can access the material on a trial basis.

## What does “accreditation” mean?

Accreditation means that the homeschool has been inspected by an outside, independent agency who has determined it to meet accepted standards for schools. These standards include the seriousness of the course of studies, the managing of academic records, accounting practices and business practices.<sup>2</sup>

**TIP:** Check to see if your state requires curriculum to be accredited and if that curriculum is accredited in that state.

## Can I access academic and extracurricular classes through DoDEA?

1. Dependent students who would be eligible to enroll in a DoDEA school on a space-required, tuition-paying status would be entitled to use or receive the specified auxiliary services offered by that DoDEA school on a tuition-paying basis.
2. Dependent students who would be eligible to enroll in a DoDEA school on a space-available, tuition-free status would be entitled to use or receive the specified auxiliary services offered by that DoDEA school, if space is available and on a tuition-free basis.
3. Dependent students who would be eligible to enroll in a DoDEA school on space-available, tuition-paying status would be entitled to use or receive the specified auxiliary services offered by that DoDEA school, if space is available and on a tuition-paying basis.

Allow eligible home-school students who meet eligibility requirements to enroll in a DoDEA school to enroll in one class, but no more than three (3) classes and/or receive special education or related services.

## DoDEA Virtual School resources

DoDEA Virtual High School (grades 9-12) <https://www.dodea.edu/dvhs/index.cfm>

DoDEA Virtual School (grades K-8) <https://www.dodea.edu/DVSK8/index.cfm>

## What are learning groups?

- Informal co-ops
- Formal co-ops or resource centers
- Hybrid, cottage or university-model schools
- Online courses
  - Live classes
  - Self-paced classes<sup>1</sup>

## What is an umbrella school?

An umbrella school is an alternative education school that serves to oversee the homeschooling of children to fulfill government educational requirements.

Umbrella schools vary greatly in what they offer and cost. Some offer group classes, a defined curriculum, sports, fieldtrips, standardized testing. Others exist only to meet the minimum legal requirements, allowing parents choose their curriculum and methods of teaching as well as freedom from an annual evaluation or testing requirement. Additionally, some umbrella schools follow a specific faith, while others are secular.<sup>2</sup>

## Educational approach

There are roughly seven main approaches to homeschooling: Classical, Charlotte Mason, Montessori, Unschooling, School-at-Home, Unit studies and Eclectic education methods.

Read more details, including the benefits and drawbacks of each, at <https://thebestschools.org/magazine/homeschool-style-right/#:~:text=best%20suits%20you.,Overview,of%20the%20benefits%20and%20drawbacks>.

<sup>2</sup> [https://en.wikipedia.org/wiki/Umbrella\\_school](https://en.wikipedia.org/wiki/Umbrella_school)

## Chinhae & Busan- support

Chinhae and Busan currently do not have a Homeschooling Group. Incoming Navy families can reach out to the following Facebook Pages if they wish to connect:

- Area 4 (Daegu) Homeschool Community Facebook page <https://www.facebook.com/groups/ArealVHC/>
- Humphreys Area Homeschool Co-op Facebook Page <https://www.facebook.com/groups/thehahc>
- Humphreys Homeschool Group (for Camp Humphrey, Osan Air Base, and Yongsan areas) <https://www.facebook.com/groups/191600224218275/>

## What if I want short-term homeschooling?

- Focus on the four major subjects: Math, Language Arts, Science and Social Studies
- Look for local homeschool groups/co-ops
- Look for short-term curriculum websites
- Consider a boxed curriculum
- Research public schools online
- Purchase workbooks
- Download pintables
- Take advantage of enrichment websites
- Ask the local librarian about local groups, resources, events and activities
- Ask for current and upcoming school lesson plan calendars from teachers
- Review DoDEA curriculum standards and course sequencing (<https://www.dodea.edu/Curriculum/index.cfm>)
- Review grade level curriculum and standards on state education websites
- Review state learning benchmarks on State education websites
- Review Common Core standards ([www.corestandards.org](http://www.corestandards.org))
- Research reading level benchmarks through comparison charts (<https://www.readinga-z.com/learninga-z-levels/level-correlation-chart/>)
- Reach out to the local military branch School Liaison Officer for local and current insight (<https://www.dodea.edu/Partnership/SLO.cfm>)

**TIP: If you believe you will be returning to a classroom setting, consider choosing options with “standards-based curriculum” to stay on target with current learning objectives and timelines.**

## What if I have a child with special education needs?

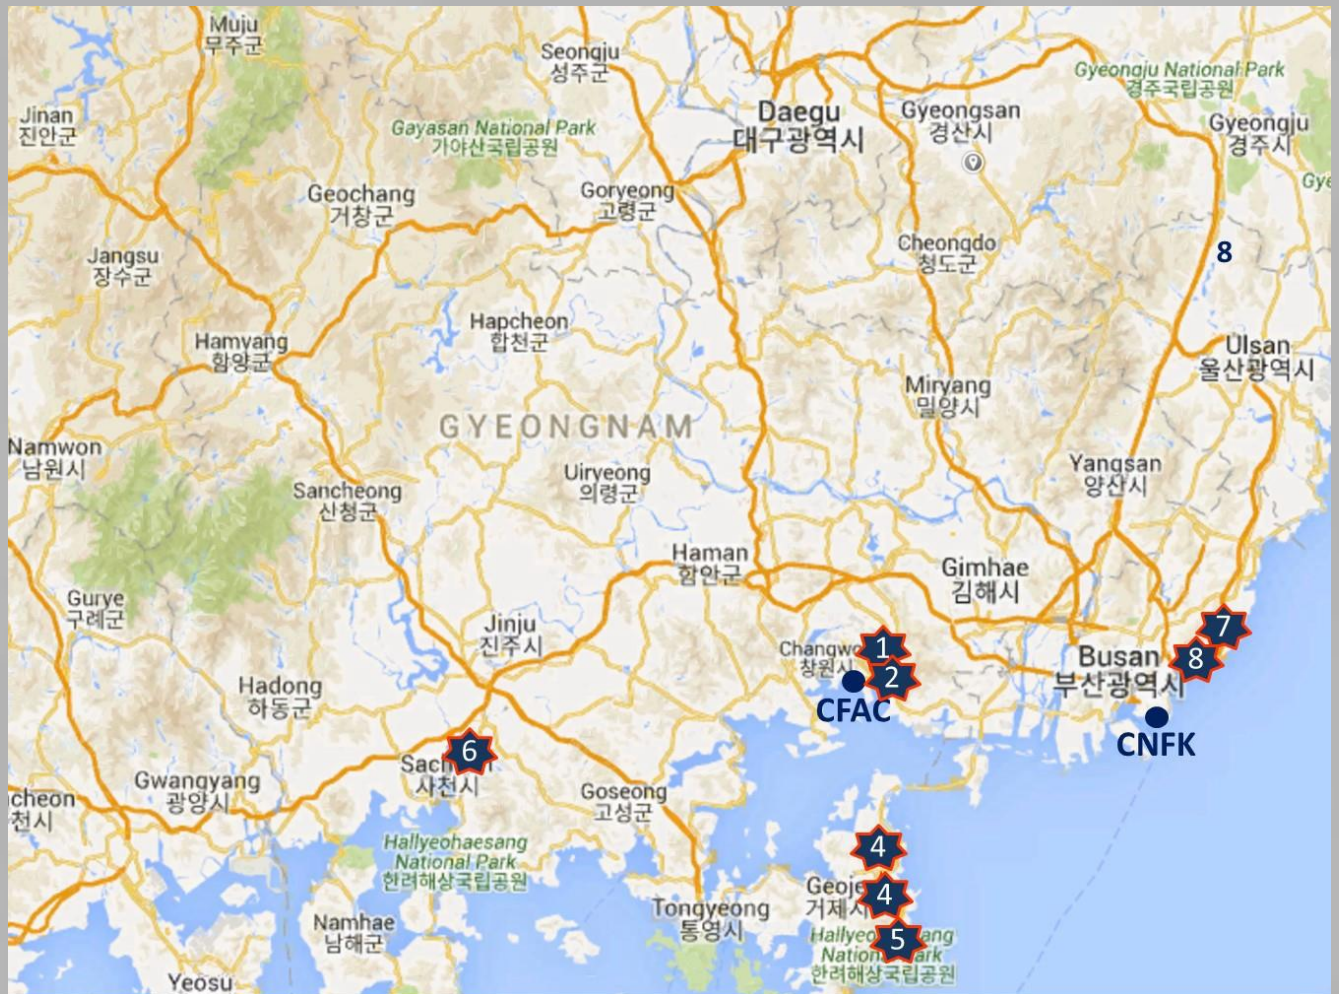

Consider asking the following questions when reviewing and comparing your opportunities:

- How are special education services provided?
- How do teachers/learning coaches/parents contribute to the Individual Education Plan (IEP) or 504 process?
- How is it determined that a student is eligible to receive special education?
- Does the charter/academy belong to Special Education Local Plan Area (SELPA)? Do the charter SELPA partners develop policies and procedures, distribute federal and state special education funds and provide a range of professional development relating to special education?
- Will I need to find my own local Special Education Professional?
- Will I need to create my own Student Education Plan (SEP)?
- Are activities clearly organized?
- Are concepts repeated, reviewed and summarized?
- Can a student work at their own pace in the assessment tests and in the learning activities?
- Do activities teach concepts through songs, graphics and videos?
- Are there visual enhancements for contrast (i.e., font, font size, spacing or color)?
- Are graphics and pictures added to practice sheets and tests?
- Do activities use different intelligences?
- Are activities broken up into manageable units?

## Disclaimers

- **Hyperlinks do not imply Navy endorsement.**
- Resource lists may not be fully inclusive.
- Parents/guardians are responsible for the education of their child.
